He's just 15 years young, and as close to bomb proof as we have in the barn. Cochise can be left off for months and rides off as quiet as can be. We've ridden him all over, he's road and traffic safe, good in or out of the arena. He's been around machinery, cattle, other horses, nothing phases him! He bathes, clips, stands tied, loads and hauls with no issue. Good for the farrier! Rides double, and is stout enough for the bigger kids.
