Silverwood Charolais

Hello and welcome once again to the Coolabunia Classic bull sale for 2021. What an exciting year it has been for cattle producers with large areas of good rainfall and tumbling record prices at the sales! This year we have 14 bulls on offer that are bred to help maximise your profit margin and help you hit your target markets. 11 of the 14 bulls are polled and 3 of those have been tested Homozygous polled (Lots 2,6,40). 12 of the 14 lots are by Charnelle McEnroe (Homozygous Poll) and he has certainly left his mark on this year's line up! We have noticed the McEnroe calves are very easy calving, easy doing, easy finishing types with outstanding temperament. The bulls were run mostly on forage sorghum and grass through the warmer months and have recently been prepared on a ration of chopped silage/straw/molasses and cracked barley (15%). We welcome and encourage any enquiries or arranged inspections before sale date. Call Rodney, 0408 717 974 or Lindsay on 0409 677 611

River Run

Charolais

We are pleased to present a draft of 13 quality bulls this year. In 2021 our bulls will be in two runs at the Sale – Lots 9 – 17 and Lots 47 - 50. 9 out of the 14 bulls in the draft are polled or polled scurred. We have 4 different sire lines represented, with the last sons of the ever reliable and consistent Ascot Gunn (P) represented again this year by 4 bulls, all of which carry his great temperament, length and doing ability. Our home-grown sire River Run Joker (P) also has 7 outstanding bulls for thickness and carcase, 2 of which are Homozygous polled. Our first bulls by River Run Nobleman (P/S) who was used as a yearling are very commercially focused sires with great structure and muscle. Lot 9 River Run Quicksilver (P) is a Homozygous polled bull by Elders Blackjack is a bull that rates highly on all growth and carcase traits on breedplan. The sires of our sale bulls are used in our commercial herds as well as the stud, so it helps us to gauge the potential of the progeny. We find that we can either sell weaners or take them through to background steers and heifers through for feeder cattle or if the season allows grass finished Jap ox cattle. We feel confident that these same genetics will perform in your herds as well. 2021 has been a successful year for us in both the Stud ring and the Prime cattle. This was evident at the Prime Cattle section of the Toogoolawah Show this year where we won the Grand Champion Exhibit with a grain fed milk tooth Charolais cross steer from over 270 entries. Sired by River Run Joker this steer shows many of the carcase attributes of his sire. This steer was fed for 112 days and had an average daily gain of 2.75kgs/day. We also saw success in the Show ring when we exhibited at Beef Australia 2021 and were very excited to win the Calf Champion Bull with a 9-month-old Palgrove Nebraska son. The bulls have been prepared on Oats and Riverina Maintenance pellets. Our bulls are breedplan recorded, fully vaccinated and semen & morphology tested and we are tested as a JBAS 7 herd. Our bulls are handled with dogs, horses, utes and buggys. Please check out our Facebook page – River Run Charolais – for videos and photos online.

Should you wish to pre-inspect the bulls or require any further information on the bulls please call **Tania on 0428 256 558**.

Diamond L Charolais & Charbrays

On behalf of the Lee Family, I would like to welcome you once again to our 9th Coolabunia Classic Charolais Bull Sale.

This year we have produced 8 bulls for the sale and the exciting thing about it is that we have 4 Homozygous Poll and 4 Polled bulls. This is the first time ever that we have not had a horned bull in the sale. Although we do have horned bulls available for Private Sale.

The bulls this year have done it tough most of their lives, being that they were born into the 2018/2019 drought, the worst we have seen. We were already feeding the cows when they were being born, but with luck we did have a break in December which went through to March. Then back into drought and these bulls were weaned at 4 months old. Since that time, we have had periods of drought but mainly good seasons.

The bulls this year are all by Ascot Juggernaut J134E a Charolais bull picked out by Tracey and many other top judges at Beef Australia 2017 and went on to win the Grand Champion Charolais Bull. Juggernaut was sold at the Ascot Sale and purchased by Manumbar Station for \$33,000. We purchased semen from this bull at Beef Australia 2017 before he had even been shown and again from Peter Atkins Vets and were able to produce the bulls for this sale.

We believe Juggernaut is a bull with a little more stretch and size than your average Charolais bull and purchased one of his sons in Tanic Nardo from the Hartwig family to use in our stud.

I would like to wish you all the best of luck with your purchases this year.

Regards

Greg, Tracey, Samantha and Hannah.

Like his champion father he has stretch, good length, good bone and will sire great carcasses in your calves. Our top bull. Well worth your inspection.

Charnelle Charolais are delighted to offer 16 industry focused Charolais bulls for sale this year at the "Classic". The draft includes 10 polled bulls, 4 polled/scurred bulls and two horned. One of the horned bulls is Full French. One of the polled bulls, (lot 37) is **Homozygous Polled**, with another two bulls lots 38 & 39 results pending. **Most of our bulls have been full Parent or Sire verified. All have been tested PI negative.**

This year we again feature six impressive sons of **Elders Blackjack**. He is proving to be a true impact sire with a whopping nine traits now ranked in the top 2% of the breed including all growth traits and scrotal size which he is now a trait leader, and EMA & fat cover. Normally you sacrifice fat for muscle or muscle for fat, but he is top of the tree on both accounts. This year we feature the first two sons in Australia by New Polled Full French Sire, **Johnny**. Check out these two bulls that come in as lots 32 & 33, and we are sure you will be impressed. An impressive **Sparrows Braxton** son comes in as lot 27. This bull is a rare find in Australia as no semen has been imported here. He is the result of an embryo imported from NZ. Another opportunity not to miss comes in the form of two **Mac 2244** sons selling as lots 35 & 36, out of a fantastic Fernvale female line. We have been blessed with a pretty good season this year and our bulls have had a good body of feed in front of them. For the most part they have been topped up with Soy Hull Pellets and Palm Kernel. During the month of June only, when the grass seeded, they were topped up with Riverina pellets. At Charnelle we search and strive for genetics that will be functional and put more dollars in your pocket. **Check out where our entire draft of bulls' average sit within the Charolais breed: All growth traits & rump fat – top 20%, eye muscle area & rib fat – top 25%.**

We are happy to have our bulls return to us for no cost agistment until suitable transport can be arranged. We wish you well with your purchases, and welcome presale inspections and enquiries. Call **Graham on 0427 622 410**.

Comments: We begin our run of bulls with a bull we believe is the real deal, whether it is structure, performance, temperament, EBV traits or pedigree, Blackjack Q4 scores 10 out of 10 for each of them! Out of a first calf Pinay heifer, (small photo) he has exceptional growth for age, yet still has a relatively low birthweight. It is a well-known fact that normally you sacrifice eye muscle for fat, or fat for eye muscle, but this fellow has the best of both worlds with a top 1% ranking for EMA & top 10% ranking for rib fat. His sire Blackjack was last year voted World Champion. ¼ semen share retained by the vendors with no further call on the bull. Tested PI negative. **Stud Sire!! Stop Press! Nugget who topped the sale here in 2018, at just 17 months of age when he was snapped up by many times return buyer Reade Radel for \$10,000. A very predictable pedigree with those typical Charnelle Blend of French & N. American genetics. Comments: When it is all about kilograms of beef produced per acre, Quasar is right up there with the best. A polled bull with a huge amount of red meat and softness packed on a medium frame. Check out his length and bone which are typical of what his dam C. Elegance 6 (small photo) our number one cow produces. She is also the dam of the sale topper at this sale last year when "President" sold to Silverwood Charolais for \$20,000. EBV highlights include top 5% for short gestation, carcass weight & yield. Remington would make a good heifer bull yet still have the growth and carcass attributes of Blackjack that we have become accustomed to.
