

Minnesota's Healthy Minnesota Contribution Program

Have you received your letter regarding the MinnesotaCare Changes?

The Healthy Minnesota Contribution Program (HealthyMN) begins

July 1, 2012

It helps adults without children pay private health insurance premiums.

As a Minnesota Healthy Contribution Plan participant, Minnesota law allows you to choose a **QUALIFIED professional health insurance agent** to assist you in enrolling into a private insurance plan. A professional insurance agent can help you better understand your options and choose a health plan to meet your needs, but you still make the final decision. We are members of professional associations that provide continuing education and resources to ensure that we provide you with high quality ethical care.

Sandra Schlaefer, RHU

Kathryn Johnson
