

Toddlers

It's been an extremely fun week for the toddlers this month! With Autumn rolling in and it being Halloween month, the children had loads to explore! They enjoyed a lot of autumn themed sensory play with orange rice, spooky coloured pasta and noodles, little and big pumpkins of so many shapes and colours, some lovely leaves of all the different colours that they are changing into, and loads of little spiders, eyeballs and rats (plastic ones, of course)! They practiced their fine motor skills through some fun crafts and play too, using tongs to pick out the little spiders from the box, spooning rice into bowls or picking the pasta out from the mix!

They also had a lot of fun with some floor games, using chalk to make marks on the floor and even colour matching pompoms! The most favourite activity of the month was baking cupcakes! They added and mixed the ingredients and made their own cupcakes!

It's been a super fun month! They also had a little Halloween party where they got to wear their spooky costumes and have a lot of fun!

It's spooky season...Happy Halloween!

ECCE class

The Jasmine class has been having an amazing time as well! It has been a month of learning some letters and numbers and loads of fun activities! The children made a lot of art with so many fun materials- markers, paper cutouts, yarn and the forever favourite- paint! They also made so many fun Halloween crafts to decorate the door for the Halloween door competition! They had the most fun making balloon jack-o-lanterns! They glued little pieces of orange crepe paper on a balloon and put on scary eyes and mouth to make their floating lanterns! The children also made a fun treat for themselves, they made chocolate rice krispies cakes! They did all the mixing and setting all by themselves and had so much fun!
