

Just A Thought...

Now faith is the substance of things hoped for, the evidence of things not seen.
Hebrews 11:1 (KJV) Unable to sleep again last night, I turned on the tv and found a documentary to watch. It was titled, The Truth Behind: Noah's Ark. I watched as scientists tried to disprove the story of Noah and his Ark. I can't say I was surprised that science found "real" reasons why Noah did not have the materials, experience or ability to build a ship of this magnitude. What did surprise me was the fact that so many institutions of higher learning and government agencies were given grants and labs to work on something that they don't believe in to start with!! The question here is, "Why?" As one watches this show, it is almost comical to see the extent scientists will go to just to disprove a theory about a God they don't believe in, a Bible they don't believe in and a story in that Book they don't believe in. Their first mistake is assuming that the Creator God uses man's idea of time. They decided that according to Bible timelines the flood happened 4000 years ago, about 2300 years before Abraham. They claim to have found proof of a flood 9300 years ago in Ur. They state that at that time all the land masses on Earth, named Pangaea, were together and possibly a meteor shower hit Earth causing Pangaea to break up along fault lines (⁵ *Who hath laid the measures thereof, if thou knowest? or who hath stretched the line upon it?* ⁶ *Whereupon are the foundations thereof fastened? or who laid the corner stone thereof...* Job 38:5-6). The result of the multiple meteor strikes was the opening of the underground water aquifer (fountains of the deep), causing earthquakes, volcanic eruptions and with the aquifer spewing steam into the atmosphere there would be massive tornados and torrential rains, ensuring worldwide flooding. There are legends from every land about a Great Flood and a man that God found worthy to be spared. The name of the man that was spared is different in each country, which is to be expected. We believe that each of the Flood stories trace back to the man we call Noah. Time is a construction of man to help him deal with day and night, changing seasons, when to eat, work, sleep, procreate and even worship The Creator. If you hold time in your hands and have the ability to change it at will, it would be of no great importance to you. That must be how God feels about Time

Behold!

§

Stand!

Behold, I stand at the door, and knock: if any man hear my voice, and open the door, I will come in to him, and will sup with him, and he with me. Rev 3:20

Today's Humor Tests for Deciding If You Want Kids

**Mess Test: Smear peanut butter on the sofa and curtains. Now rub your hands in the wet flowerbed and rub on the walls. Cover the stains with crayons. Place a fish stick behind the couch and leave it there all summer.

** Dressing Test: Obtain one large, unhappy, live octopus. Stuff into a small net bag, making sure that all arms stay inside.

** Physical Test (Women): Obtain a large beanbag chair and attach it to the front of your clothes. Leave it there for 9 months. Now remove 10 of the beans.

**Physical Test (Men): Proceed to the nearest food store. Set your wallet on the counter. Ask the clerk to help himself. Go to the head office and arrange for your paycheck to be directly deposited to the store. Purchase a newspaper. Go home and read it quietly for the last time.

**Final Assignment: Find a couple who already has a small child. Lecture them on how they can improve their discipline, patience, tolerance, toilet training, and child's table manners. Suggest many ways they can improve. Emphasize to them that they should never allow their children to run riot. Enjoy this experience. It will be the last time you will have all the answers.
