== PumpOut Shield™ ==

**The Safer, Healthier, and Legal Solution to
Waste Water Removal.**

The PumpOut Shield™ protects against discharge water splashing and damaging walls and floors, commonly known as secondary damage. It is designed for any truck mounted or portable pump-out system. It fits virtually any toilet. No more worrying about discharge hoses causing damage. Simply lift the toilet seat, place on the bowl, pull the bungee cord around back of seat base and place hook into eyelet. Connect your pump-out hose (garden hose type) and you are ready to safely discharge your waste water. Make a great impression on your customers. Specify hose connector size desired. When ordering – 5/8" garden hose; 1 1/2", or 2" Net weight 3.5 lbs.

- **Install in seconds**
- **Protects Customer's Walls & Floors**
- **Reduces Clean-up**
