

BEYOND A SAFE WORKPLACE

In addition to a safer workplace, creating a safe work environment for all your employees has many benefits, including:

- ✓ **Improved Morale** - Employees that know you “have their backs” will have yours as well by pointing out other areas in your business that can be made safer or more productive.
- ✓ **Increased Productivity** - Employees that are trained to operate safely can operate more efficiently. Improved efficiency leads to better productivity.
- ✓ **Better Care & Increased Useful Life** - Employees that are “safety-minded” care for the equipment they operate and the environment they work in. This leads to better care and a longer useful life of your assets.
- ✓ **Reduced Costs** - Fewer accidents, claims and product damage all add up to an improved bottom line for your business!

HELPING YOU
ACHIEVE AND MAINTAIN
A SAFE WORKING
ENVIRONMENT
FOR EVERY
EMPLOYEE

OUR APPROACH

At Matthai Material Handling, we believe safety means much more to your operation than meeting the government’s requirements. Although fines and trial awards have nearly doubled in recent years, more is at stake.

Providing a safe workplace for your employees is important. After all, their families are counting on you. Manufacturing, handling and storage facilities can be very dangerous places, and our job is to ensure that your employees know the safe operating procedures of your facility and follow them.

REDUCING YOUR IR (Incident Rate)

Insurance companies, your customers, potential customers, OSHA and even courts will look at your IR as an indication of your facility’s efforts to maintain a safe working environment.

Lowering your IR is central to our program’s efforts. Lowering your IR lowers your costs and improves productivity, customer retention and your bottom line.

We have a plan, and we’ll work with you to execute it and help you maintain it.

WHAT WE DO

Whether you’re building forklifts, transporting goods, or storing them, you have processes. Our system helps you identify areas that need your attention, put together a plan to improve them, and monitor them for performance.

A TRUSTED SOURCE

Having an experienced and trusted source as a safety partner is important. Michael Sanders, our Director of Safety, has over 40 years of experience in the manufacturing, distribution, and safety arenas, and earned an Associate of Applied Science Degree in Occupational Safety and Health Technology in 2016.

He has worked with MDE, MOSH, and OSHA, creating safety programs and documentation with several organizations to include the mandatory training, continuous improvements, best practices, and incident investigations.

Michael Sanders, Director of Safety

Reducing incident rates, improving safety and lowering costs are our goals. Let Matthai Material Handling assist in maintaining a safe work environment for your employees.
